PROFESSIONAL SUMMARY

Full-Stack Software Engineer with 1.5+ years of industry exposure and strong hands-on experience building modern web applications using React.js, Node.js, Express.js and Django. Skilled in developing responsive frontends, secure REST APIs, authentication workflows, and end-to-end application delivery. Strong problem-solving skills with enterprise exposure and effective client collaboration experience.

SKILLS

- Frontend** : React.js, HTML, CSS
- Backend** : Node.js, Express.js, Django, Flask
- Programming Languages** : Javascript, Java, Python, C
- Databases** : MySQL, SQLite
- API & Auth** : REST API's, JWT Authentication
- Tools & Version Control** : Git, Postman, Visual Studio Code, Github Copilot

PROFESSIONAL EXPERIENCE

Accenture – Packaged App Development Associate (Jul 2024 – Feb 2026)

Project 1: Operations and Incident Monitoring Platform (Internal Product)
Full-Stack internal web application for monitoring ticket status, SLA compliance, incident trends, and operational performance metrics.

- Developed React.js dashboard components and Node.js REST APIs for ticket tracking, reporting, and operational analytics.
- Designed MySQL-based reporting modules for trend analysis, performance monitoring, and data-driven insights.
- Implemented advanced search, filtering, prioritization, and automated reporting features to improve operational visibility.
- Collaborated with end users to gather requirements and enhance application usability across multiple releases.

Project 2: Enterprise Integration Platform (Client: Google)
Worked on a large-scale enterprise integration platform responsible for secure communication and data exchange between interconnected business systems and partner applications.

- Developed, analyzed, and debugged integration workflows and interfaces to support reliable communication across interconnected systems.
- Performed impact analysis on mappings, configurations, and code changes to ensure system integrity and seamless data flow.
- Managed SSL/TLS certificate implementation, deployment validation, and secure connectivity across integration environments.
- Collaborated with client and cross-functional teams to gather requirements, troubleshoot integration scenarios, and deliver technical solutions.

Innovature – Software Intern (May 2023)

Project: Customizable AI Chatbot
Customizable OpenAI-powered chatbot enabling intelligent query answering from user-ingested data sources.

- Built Django REST APIs with JWT authentication to enable secure and stateless user access.
- Developed a responsive React.js frontend with real-time messaging and persistent chat history.
- Integrated OpenAI APIs to generate context-aware responses from custom knowledge sources.
- Designed MySQL data models for user sessions, chat history, and knowledge base management.
- Delivered the solution end-to-end across the Software Development Life Cycle(SDLC), including system design, API development, frontend implementation, testing, debugging, and documentation.

EDUCATION

- B.Tech, Computer Science and Engineering** – Govt.Model Engineering College, Kochi (KTU) | CGPA – 8.75 | 2024
- CBSE Class XII** – Bhavans Vidya Mandir, Elamakkara | 95.4% | 2020
- CBSE Class X** – Bhavans Vidya Mandir, Elamakkara | 95.2% | 2018
